

Activating Your Art & Stitch on your Qmatic

Follow Step 1 in your Art & Stitch booklet – “Register to get a personal Activation Serial Number”. Send to info@artistitch.com with the following info:

Full Name

City/State

Registration Number (found on the disc)

Once you receive that information you will open Art & Stitch on your Qmatic monitor:

Fill out the form completely. Once you've done this, you'll need to follow these instructions:

**Offline activation - when your computer cannot be connected to the internet
(Pro-Stitcher users)**

When your computer cannot be connected to the Internet (**such as the Pro-Stitcher netbook**), you need to perform an extra step:

- As soon as you have received the "Activation Serial Number" from us, start Art and Stitch.
- In the form that opens enter the information into the required fields, including the Activation Serial Number. The software will search for an Internet connection. When it doesn't find one, an extra line appears in the window, showing a "Site Code" (on some computers you may have to click OK to close error messages like "cannot connect to server" and "contact tech support"):

- Send **the required information of the form, including the Site Code AND the Registration number of the CD**, to us: Carefully type all information in your email to us so that I can copy and paste the information into the form for you (do not send as photo or image).
- We will create a unique "Site Key" on the basis of your information and send this Site Key to you per email (please check your Spam box!!).
- Once you have received the Site Key, complete the form again and click on the button "Activate Now". On some computers you may have to click OK to close error messages like "cannot connect to server" and "contact tech support".
- Then enter the Site Key carefully into the field "Site Key" and click on Activate Now.

You'll receive an email back from Loes at Art & Stitch with your Site Key – fill out the form completely again and click "Activate NOW" and your Art & Stitch will activate.

Now you can manipulate and create designs in Art & Stitch.
